### OUR PROGRAM

Looking to better lead in your current organization? Advance within your career field? Take on a new professional challenge? Or, develop critical transferable skills that can be used in any workplace, community, or group? Then, the time is now. The Master of Science in Leadership Development is a five-semester, applied, online master's program designed to:

- Develop your leadership skills around emotional intelligence, teaming, communication and conflict negotiation, problem-solving, ethics, diversity and inclusion, and evaluation.
- Help you learn strategies for building leadership capacities of individuals, groups, and organizations.
- Teach you how to apply knowledge, strategies, and research to common challenges encountered in organizations.
