

LAKE CAMPUS LECTURE SERIES

15
NOVEMBER

2PM

BREWING

Learn how grains (barley) and hops are grown, processed and handled to make high-quality beer. The lecture will also include a brief overview of the brewing process. This lecture will definitely quench your thirst for brewing knowledge.

In the Wright State University-Lake Campus Lecture Series, faculty members present lectures from their fields of expertise. These talks are free and open to the public.

DR. GREG MCGLINCH

Assistant Professor, Agriculture

DR. JOSEPH CAVANAUGH

Professor, Economics
